Releasing Monarch Butterflies at our Annual Butterfly Festival in Windsor ON

MORE BELOW

I would like to thank all our group members who have participated and helped during our annuals events in our City and Counties during 2023 and in the past years.

A special thanks goes to my Wife Teresa and my best friend Quirino Gesuale for putting up with me every time I call upon them to help me during these events throughout the year.

Looking forward to more events in the future in order to bring awareness about the monarch butterfly in our communities, and hopefully it will bring them back in our gardens in bigger numbers for the years to come.

Enjoy some picture from our cemented garden set up:
