

Mona Needs Our Help

I'm Mona a Monarch Butterfly on a Mission!

I need a superhero to help protect my babies from the big bad predators lurking around the milkweed plants. I've got a speedy plan! In just 28-30 days, I transform from a tiny egg into a majestic butterfly.

Here's the deal: for about two weeks, I'll need some food and a bit of cleanup duty until I hit Instar 5.

After that, I'll give you a break for ten days before I emerge as a beautiful butterfly.

ALL I NEED IS SOME FRESH MILKWEED LEAVES TO CHOW DOWN ON AND A LITTLE LOVE

I HAVE OVER 2,900 GREAT FRIENDS WHO CAN GIVE YOU EGGS, BABY CATERPILLARS, AND MILKWEED LEAVES

They're just a Facebook message away or give Leo Silvestri a buzz at 519-977-3639.

Can you lend a hand? If not, no worries! Spread the word, and don't forget to spruce up your garden with flowers we all adore! Think Butterfly Bush, Zinnia, Coneflower, and more.

With your garden blooming I promise you'll see lots butterflies
